

Alina Santiago Veterinary Technician at Lincoln Highway Veterinary

When I came to New Choices I was: without purpose as well as unsure of what I would be good at or like doing for that matter. I drove myself crazy with boredom and laziness as a result of being unemployed for almost 3 years. I was also very afraid of getting let down in the work force.

The New Choices program gave me: an opportunity to see what skills I had as well as what abilities I possessed that could help me build a future career. I created a better outlook on life's disappointments and discovered not to take them personally.

Today I am: training to be a vet-tech at the veterinary hospital. I am getting paid to learn as well as study to become state certified. I have been provided my study supplies by the job and will also be taking my test through them. I don't even have to pay the school tuition! AMEN!
